Two Death At Pascagoula.

Our neighboring city of Pascagoula was greatly shocked last week because of the death of two of its citizens in less than a week.

The first death to occur was that of Mrs. Julia A. DeJean the beloved wife of Mr. Louis P. DeJean, a prominent business man of Pascagoula. Mrs. DeJean was sick only one day, being taken to Mobile for treatment on the noon train of Saturday July 20, and in which city she passed away in the afternoon at 4:30 o'clock.

The remains of this esteemable lady were brought to Pascagoula on Sunday morning and the funeral was held on Monday afternoon from the Cotholic Church of which the deceased was a devout member. Flowers in profusion were placed about the bier and marked the high esteem in which this noble lady was regarded by her many friends in Pascagoula.

The second death was that of Pedro R. Jane, the popular assistant cashier of the Merchants and Marine Bank, which occurred on Thursday afternoon at 1:10 o'clock. Although sick for several days, the condition of Mr. Jane did not exercise his friends until Monday, when his condition became very alarming and no hope was held out for his recovery after that time.

"Our Awful Aunt" A Success

They play "Our Awful Aunt" and the drill which was staged in this city at the auditorium of the Central School building on Friday evening and in Pascagoula on Saturday evening at the Warfield Theatre proved to be a success.

The play was under the auspecies of the Knights and Ladies of Honor a new fraternal order that has been recently organized in this city. The object in putting on this play and drill was to raise a little money to assist the new lodge in getting a start.

Owing to the excessive hot weather the attendance here was some what less than it was expected to be. The attendance in Pascagoula was fully up to expectations, the moving pictures in that city which were run in connection with the play having a tendency to draw a good crowd.

We are told that the drill that was put on in connection with the play was exceptionally fine, both here and in Pascagoula.

We understand that the people of the later city have requested those in charge of the play to make arrangements to have the play staged in Pascagoula again at an early date, and giving it as their opinion that the attendance next time would be exceptionally large. About $20.00 was made out of the two performances

ELECTRIC RAILWAY

To Paper Mill is Practically Assured.

That this city will have an electric railroad from here to the plant of the Southern Paper Company is now practically an assured fact.

The Pascagoula-Moss Point Northern Railroad Co. have only recently secured a right-of-way from here to the paper mill and will within the course of a very short time begin the construction of a spur track from here to the plant. Knowing this to be a fact, Mr. Joseph H. Wallace, second vice president and Mr. A. E. Millington, manager of the Southern Paper Co., asked for a conference of the business people that they might submit a proposition, that if accepted, would tend to afford better transportation to the men who work at the plant and reside in this city.

The conference asked for was held on Monday afternoon at the Pascagoula National Bank, and was attended by quite a number of the progressive business men of this city as well as by several of the directors of the
